WORK EXPERIENCE

Senior UX/UI Designer

Strata3 2013 — Present

As a Senior UX/UI designer my main responsibilities are attending to client meetings to gather information in order to get a sense of what is the client's requirements. Wireframing and doing information architecture for later prototype concepts. And finally designing and doing frontend development for responsive webdesign solutions.

Senior UX/UI Designer

Active Media 2011 — 2013

Working in a small web studio and being the single designer I was responsible for all visual communication for all our clients. My main responsibilities were prototyping and designing responsive web solutions as well as doing art direction and design for digital signage products.

UI Designer/Frontend

Controlinveste 2011 — 2011

Working in the biggest news media group in Portugal I was responsible for collaborating in a redesign of one of the media group websites. I was responsible for design, frontend and support the backend development.

Designer

Various 2008 — 2010

Between these two years I worked in other companies that helped me on my personal and professional growth. I worked in news media industry, mobile/web startup projects and telecommunications companies.

EDUCATION

Tablet / Mobile Design & Development

EDIT — Portugal 2005 — 2008

Degree in Communications and Multimedia

ESE Santarém — Portugal 2011 — 2012

SKILLS

Information architecture, user experience, web design, responsive design, frontend development, CSS3, HTML5, SEO, Google Analytics for UX purposes, SASS, mobile design, art direction.

INTERESTS

I like photography and pretty much all kind of music. I try my best to be always updated with the new trends and technologies. I like fishing and I love cooking while drinking a really good red wine.
